

SANDRA VIEIRA

ARCHITECT • DESIGNER

Sandra was always a gifted artist. While people were drawing conclusions about her work meriting admittance to distinguished art schools, Sandra found herself drawn to 3D space. Her passion, she found, was sculptural. It deepened over time, and evolved into Interior Design, Architecture and Landscape Architecture jobs. Sandra enjoyed how her projects always seemed to focus on integrating natural elements like water, gardens, trees, light and she sought consulting work that allowed her to continue to play with nature and space.

Sandra has over 10 years worth of experience consulting and drawing architectural solutions to real spaces. Her consulting work for Boston University helped construct student housing and a new addition to the BU Law Tower. Her drawn plans helped visualize construction for places such as the new Loews Hotel tower in downtown Boston, TD Bank, and the Great Mall of Dubai. Now, she is a visionary for the Experience Design team; drawing up ideas and bringing projects to life for clients.

EDUCATION

Certificate, Interior Design, Ashton Art Institute

Museum School of Fine Arts

B. Arch., Architecture, Boston Architectural College

M.L.A., Landscape Architecture, Harvard University

SELECT PROJECTS

Textron Corporation

Rhode Island D.O.T.
